

NORTENE®

AGROSOL

Special landscaping mulch fabric

The AGROSOL mulching canvas is the most effective way to obtain healthy plants without much maintenance. Is particularly recommended if you have sloping ground: it will hold the earth and limit erosion.

Benefits

This European manufacture canvas is of professional quality with green and brown horizontal stripes every 15 cm to guide you when planting: a high-quality mulch increased by mechanical strength. Cuts down on watering and maintains moisture at the foot of the plants, avoids the chore of weeding.

Characteristics

It is important to attach this canvas firmly to the ground using the metal staples.
Made in Europe.
4-year UV protection guarantee.
The fabric is woven in green / black polypropylene.
Green with brown horizontal stripes every 25 cm.
Heavy-duty quality: 120 g/m².
